(08/2019 - 06/2022)

PROJECTS

Cook.io -- Epicurean Navigator

I crafted "Cook.io—Epicurean Navigator," a flavorful web experience using HTML, CSS, and JavaScript. Seamlessly integrating APIs, it serves up culinary delights and reflects my commitment to blending technology with the art of culinary exploration. Making every byte a delightful journey, "Cook.io—Epicurean Navigator" underscores the need for accessible and interactive culinary resources. Bonus: Beyond its recipe prowess, "Cook.io—Epicurean Navigator" boasts a vibrant online community of food enthusiasts, fostering collaboration, sharing, and culinary innovation.

Notary -- Discover Your Books

Notary—Discover Books" is a web application for book enthusiasts. Crafted with HTML, CSS, and JavaScript, it offers a curated collection of books. Users can explore book content, word counts, and discover most and least used words. It also provides comprehensive document statistics for each selected book. This project blends technology and literature, providing an interactive platform for deep literary analysis and appreciation.

Evara -- An Online Product Store

Evara" is a feature-rich e-commerce website created with HTML, CSS, and JavaScript, offering a diverse range of products. Users enjoy seamless browsing and secure purchasing, backed by efficient order management. Personalized recommendations and user reviews enhance the shopping experience. Evara represents the fusion of technology and commerce, redefining online shopping with convenience and interactivity

Spotify Clone — React Application

Developed a Spotify clone application using React to showcase my ability to build a modern, interactive UI from scratch. Implemented key features such as audio playback controls, album and song view, search functionality, and playlists, while ensuring a smooth, responsive experience across devices. Utilized React Router for client-side routing, Axios for API calls, and modern styling techniques (CSS/Tailwind) to match the look and feel of a real-world music platform. This project demonstrates my skills in component-based architecture, state management, API integration, and designing reusable UI components — reflecting my ability to develop scalable and dynamic web applications.

Full-Stack Note-Taking Application

Developed a full-stack note-taking application using React for the frontend and Node.js with Express for the backend. Designed and implemented CRUD functionality that lets users create, view, edit, and delete notes, with all data securely stored on a backend server. Built a modern, responsive UI with React components and integrated API calls to communicate smoothly with the Express backend. This project demonstrates my ability to develop full-stack applications, handle API routing and state management, and create a user-centric UI, reflecting my skills in both frontend and backend technologies.

Movie App-Using TMDb API

Developed a fully responsive Movie Database App using React, Bootstrap, and the TMDb API. The application allows users to browse, search, and view detailed information about movies including posters, overviews, ratings, and release dates. Integrated features such as real-time search, dynamic routing with React Router, and category-based filtering for trending, popular, top-rated, and upcoming movies. Implemented modular components, API data fetching with Axios, and loading states for a smooth user experience.

Programming SKILLS

HTML · CSS · BOOTSTRAP · JAVASCRIPT · React JS · NodeJS (Beginner) · MYSQL · Tailwind CSS

Tools & Platforms

- Git & GitHup
- Postman(API development)
- Canva(graphic design)
- Wix Studio
- Davinci Resolve(Video Editing)

COMPETENCIES

Creativity - Attention to detail

Project management UI

Improvement Category-Flexibility

& Adaptability Programming

PERSONALISATION

As an aspiring Full Stack developer, I am enthusiastic about designing visually stunning and user-friendly websites. My ingenuity and eagerness for resolving complex issues are pivotal to my approach to Full Stack developer I am thrilled to collaborate with a dynamic team and learn from industry experts as I expand my proficiencies in this rapidly evolving field.
